DETAILED ACTION

Examiner amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follow:

In The Claims:

Claims 23-28 have been amended as followed:

23. (Currently Amended) The system as recited in claim 22, wherein the SMLC also proceeds to request the development of data related to the MS location from all LMUs that are optimally configured to cooperate in the determination of locations served by the identified cell site.

24. (Currently Amended) The system as recited in claim 23, wherein the LMUs apply their signal acquisition and processing facilities to detect and extract the data appropriate for support of the location-determination calculations, and these LMU data are then provided to and received by the SMLC for integration into the location processing.

25. (Currently Amended) The system as recited in claim 24, wherein, in support of the location determinations, the GPS data relevant to the MS location is sensed by the MS receiver with whatever assistance its processing facilities are configured to exploit, and the MS develops this data and communicates the data to the serving cell site for inclusion in the location calculations, wherein the MS's GPS data is provided to the PDE by way of the wireless communications system (WCS), and wherein the LG receives these data from the WCS or, optionally, the LMUs receive, demodulate, and provide the MS's GPS data from the MS response message.

26. (Currently Amended) The system as recited in claim 25, wherein the SMLC receives the GPS information that the MS has provided for insertion into the integrated location-determination calculations.

27. (Currently Amended) The system as recited in claim 26, wherein, with the data received from the LMUs and from the MS, the SMLC integrates all of the data in deriving an optimal probable estimate for the MS location parameters.

Art Unit: 2617

28. (Currently Amended) The system as recited in claim 27, wherein the location-related measurements obtained from the cooperating LMUs include data of various forms and positional sensitivities from LMU positions and equipment that support various individual accuracies, and the GPS data may individually define or support stand-alone data location, with potential correctable biases, or may only provide pseudorange and Doppler measurements for a limited, incomplete set of SV signals due to occlusion or distortion of the GPS signal propagation paths, and wherein the SMLC combines all of the data provided and integrates them into probability- based evaluations that incorporate whatever additional relevant collateral information is available to further condition the location estimate.

Reasons for Allowance

2. This office action is response to amendment filed on 05/29/2008. Claim 1-21 and 29-48 have been canceled. Claims 22-28 are currently pending.

Claims 23-28 are dependent on claim 22.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dai A Phuong whose telephone number is 571-272-7896. The examiner can normally be reached on Monday to Friday, 9:00 A.M. to 5:00 P.M..
